AIPSO Enhances Online Delivery of Residual Market Insurance Data

AIPSO is pleased to announce that the data traditionally published in *AIPSO Facts* on an annual basis will now be provided throughout the year on AIPSO.com. This change is reflective of our organization’s efforts to improve the delivery of residual market insurance data to our customers in more efficient and user-friendly formats.

Former recipients of *AIPSO Facts* can now locate the publication’s relevant data and information online on the AIPSO.com web pages presented below:

- Section 1 of AIPSO Facts - Residual Market Overview – which provides general information about our organization will now be found on the *About AIPSO* page (<https://www.aipso.com/About-AIPSO>)

- The remaining data-related sections from *AIPSO Facts* have been reformatted and found on AIPSO.com's *Industry Data* page (<https://www.aipso.com/Industry-Data>).
Note: You must be a registered user of AIPSO.com to login and view this data.

The screenshot shows the AIPSO website's 'Industry Data' page. At the top left is the AIPSO logo with the tagline 'Serving the Insurance Industry' and 'THE OFFICIAL WEBSITE OF AIPSO'. To the right are 'CommServices' and 'Logout' buttons. A navigation bar contains links for 'Home', 'Plan Sites', 'Manuals', 'Circulars', 'Company Reports', and 'Contact Us', along with a search box. Below this is a blue header for 'Industry Data'. The main content area is divided into two columns. The left column, titled 'For Registered Users', lists various resources like 'AIPSO Events', 'Annual Report', and 'Industry Data'. The right column, titled 'Industry Data', features a large graphic with numbers and a bar chart, followed by a list of data categories: 'AIPSO Facts (Archive)', 'Application Volume', 'Auto Registrations and UM Statistics', 'CAIP/Alternative Mechanism Results', and 'Written Premiums'. The 'Application Volume' link is circled in green.

Presenting data in new formats provides AIPSO's customers with several benefits, including:

- Data will be provided more frequently (monthly and quarterly, instead of annually)
- Data will be presented in Excel files whenever possible, so the user can access and reformat it as needed
