

Online MP Reports – New Consolidated XML Data File

We're pleased to announce an enhancement to the online Members' Participation (MP) Reports on aipso.com **that will enable users to access their CAIP MP Report data in a single download.**

In addition to the current online options, you can now download your CAIP MP Reports as single combined XML data file; the data can then be sorted or filtered to suit your needs using Excel or similar software.

This enhancement is in direct response to user feedback, and available beginning with the MP Reports issued in **December 2016, forward.**

NEW COMBINED CAIP XML FILE *Includes all CAIP states and Alaska*

	Report Name	Pooling Mechanism
Select	201605_MP_CAIPAK_Countrywide_20161021_09965.xml	CAIPAK

Select	MP Statutory Supplement (XML) - Other Than Private Passenger	Loss Detail By Accident Year	DE CAIP
Select	MP Statutory Supplement (XML) - Other Than Private Passenger	Summary of Operating Results	DE CAIP

Additional information:

- Existing online reports will not change. The combined XML file is an addition to what appears online today. Minor changes are being made to the online navigation screen to accommodate the combined XML file.
- The combined XML file is separate by company. Multiple companies are not combined in the XML file, but can be combined on the user's end using Excel or similar software.
- The combined XML file consists of two separate files by mechanism:
 - One file includes CAIP, SRDP, CAP, and Alaska SCP
 - The second file includes JUA and Reinsurance Facility states

Two separate files by mechanism are necessary to accommodate the report period/timing differences between states. It is expected that the JUA/RF file will be available several weeks after the CAIP file is posted. If needed, the two files can be consolidated on the user's end using Excel or similar software.

- The combined XML file can be found on the *Company Reports* page of aipso.com:
